Introduction

The Canadian Association of Schools of Nursing is the national accrediting body for nursing education in Canada. In 1987, the organization accredited its first undergraduate program. Since then, the accreditation of nursing education programs in Canada has become a core function of CASN, which reviews over a dozen schools every year.

Accreditation promotes excellence and is recognized worldwide as an important, objective method to assess professional education programs. It identifies strengths and opportunities for improvement that can guide decision making. The process provides administrators and faculty with information regarding areas that require development, modification, and/or resources.

The program of accreditation sets forth overarching quality dimensions, standards, descriptors, and key elements against which internationally educated nurse bridging programs are assessed while also incorporating flexibility regarding the organizational structure and curriculum. This flexibility enables programs to be autonomous in their academic perspectives and responsive to their regional, social, professional, and institutional contexts.

For more information on our accreditation program, please visit Accred.CASN.ca or contact Joni Boyd jboyd@casn.ca.

L'Association canadienne des écoles de sciences infirmières (ACESI) tient lieu d'organisme national d'agrément pour les programmes de formation en sciences infirmières canadiens. C'est en 1987 que l'association a agréé pour la première fois un programme de formation en soins infirmiers de premier cycle universitaire au Canada. Depuis, cette activité d'agrément est devenue une fonction essentielle de l'ACESI, qui effectue des examens impliquant plus d'une douzaine d'écoles chaque année.

L'agrément favorise l'excellence et est reconnu partout au monde comme un moyen objectif et important d'évaluation de programmes de formation professionnels. Il permet de cerner les forces et les possibilités d'amélioration pouvant orienter la prise de décisions. Le processus procure aux administratrices et aux membres du corps professoral des renseignements sur les secteurs devant être développés ou modifiés ou ayant besoin de ressources.

Le programme d'agrément énonce les dimensions de qualité obligatoires, les normes, les descripteurs et les éléments clés en fonction desquels les programmes de transition pour les infirmières formées à l'étranger sont évalués, tout en prévoyant une certaine marge de manœuvre à l'égard de la structure organisationnelle et du programme d'études. Cette marge de manœuvre assure l'autonomie des programmes dans leurs perspectives pédagogiques et leur permet de s'adapter à leurs propres contextes régional, social, professionnel et institutionnel.

Pour plus d'information à propos de notre programme d'agrément, visitez Accred.CASN.ca/fr ou veuillez communiquer avec Joni Boyd jboyd@casn.ca.

CASN Accredited Programs

Only nursing programs successful in achieving accreditation status from the CASN Accreditation Bureaus, and within the term limit of the accreditation status granted, are eligible to state that they are a "CASN Accredited Program". Any other use of the term without written CASN approval will result in legal action.

The following nursing programs are currently accredited by the CASN Accreditation Bureaus. They are listed in the language in which they are offered.

Agrément et Programmes agrees

Seuls les programmes de sciences infirmières ayant obtenu l'agrément du Bureau de l'agrément de l'ACESI, selon la durée de l'agrément octroyé, peuvent prétendre au titre de « programme agréé par l'ACESI ». Des poursuites seront intentées contre toute personne physique ou morale qui utilise ledit titre sans avoir obtenu au préalable l'autorisation écrite de l'ACESI.

Les programmes de sciences infirmières suivants sont actuellement agréés par les Bureaux de l'agrément de l'ACESI. Ils sont présentés dans la langue dans laquelle ils sont offerts.

The Value of Accreditation | La valeur de l'agrément

With over **130 schools of nursing** in Canada offering entry-to-practice pre-licensure education, increased government demands for student admissions, and higher nursing student enrollment than ever recorded, formal recognition that your program meets national standards of excellence is paramount.

Avec plus de **130 écoles de sciences infirmières** au Canada offrant une formation préalable au permis d'exercice, des demandes accrues du gouvernement pour l'admission d'étudiantes et étudiants en sciences infirmières et un nombre d'inscriptions enregistré plus élevé que jamais, la reconnaissance officielle que votre programme répond aux normes nationales en matière d'excellence est primordiale.

What positions **your school** in the forefront of nursing education in the eyes of students and the public?

Qu'est-ce qui positionne **votre école** à l'avant-garde de la formation en sciences infirmières aux yeux de la population étudiante et du public?

CASN Accreditation helps you achieve **educational excellence** and **global eminence**.

L'agrément de l'ACESI vous aide à atteindre **l'excellence en formation** et **l'éminence mondiale**.

Accreditation lets the world know that an institution meets or exceeds quality standards and is accredited by a recognized national agency like CASN.

L'agrément indique au monde entier qu'un établissement atteint ou dépasse les normes de qualité et est agréé par un organisme national reconnu comme l'Association canadienne des écoles de sciences infirmières (ACESI).

Accreditation tells nursing students and the public that a program has undergone a rigorous self-evaluation and an **independent, objective peer appraisal** of the overall **educational quality**.

Il atteste également aux étudiantes et étudiants en sciences infirmières et au public qu'un programme a fait l'objet d'une autoévaluation rigoureuse et d'une évaluation par des pairs **indépendants et objectifs quant à la qualité globale de la formation**.

As a voluntary but challenging process that reveals strengths in your program and more importantly, areas to focus on, CASN's Accreditation seal means your program meets **high academic standards** and your school is engaged in a process of **continuous quality improvement**.

En tant que processus volontaire mais stimulant qui révèle les points forts de votre programme et, plus important encore, les domaines sur lesquels se concentrer, le sceau d'agrément de l'ACESI signifie que votre programme répond à des **normes universitaires élevées** et que votre école est impliquée dans un processus d'amélioration **continue de la qualité**.
